

Dreams and Divination

with Eva Rider, M.A.

Dream Work Facilitator & BodySoul[©] Synthesist

Join me in exploring the dreamscape and its relationship to the art of divination.

In illuminating the messages of your dreams, patterns emerge that point to the past, present and future of soul's journey.

We will engage divination methods such as Tarot with gentle movement, music and collage as we work with our dreams to enhance and deepen our experience of inviting Spirit to play in Matter, thus embodying Soul.

To get the most from this workshop, familiarity with Jung, dream work or movement is helpful.
